The Launch of Quinta Essentia

The Italian Sea Group launches the 180-foot Quinta Essentia.

The 180-foot superyacht launched on March 24, 2016.

The 180-foot *Quinta Essentia* is the largest yacht built by Admiral Yachts to date, and launched at The Italian Sea Group's yard in Marina di Carrara.

The owner is an experienced yachtsman who has owned multiple well-known yachts.

Quinta Essentia is equipped with a hybrid propulsion system that combines two traditional engines with two electric motors for a nearly silent cruise when desired.

Interestingly, Admiral Yachts is currently working on an even larger yacht due to launch in 2018. Stay tuned for more on this new project.

Yachting

Quinta Essentia is 180 feet length overall.

She is an all-aluminum superyacht.

Quinta Essentia's exterior is designed by Vripack and the interior by Michela Reverberi Studio.
